MQRIC Notice 4: Certificates of Memberships

MQRIC informs that all certificates of memberships are not academic programmes of study, but confirmation of professional aptitude. Consequently, such certificates of memberships cannot be referenced to the MQF unless evidence is shown of accreditation of such certificate by the competent educational authority in the jurisdiction of the 'awarding body'. Holders of such certificates may present for recognition the academic programmes leading to such memberships, or present such certificates of memberships directly to the applicable regulatory bodies.
